

Based on the given table , I will fill in the masked entities in the sentence : " Greg Norman ranked higher than Billy May fair in the Lee Jan zen " .

Here 's the completed sentence : Greg Norman ranked higher than Billy May fair in the Lee Jan zen . Here 's the explanation : - [ENT] = Entity -

The first [ENT] is " Greg Norman " , which is the player ranked first in the table . - The second [ENT] is " Billy May fair " , which is the player ranked second in the table . - The third [ENT] is " Lee Jan zen " , which is the player ranked third in the table . So , the sentence is completed with the actual player names from the table .
