

Based on the given table , we can fill in the masked entities as follows : - [ ENT ] = Player - [ ENT ] = Country - [ ENT ] = Earnings - [ ENT ] = Events - [ ENT ] = Wins The sentence with filled -in entities would be : Greg Norman and Billy May fair both had 3 Wins in the Earnings . However , the table also mentions that Greg Norman had 3 Wins and Steve Elk ington had 2 Wins . Therefore , a more accurate sentence would be : Greg Norman and Billy May fair both had 3 Wins in the Earnings , while Steve Elk ington had 2 Wins .
