

To fill in the entities masked by [ENT] in the given sentence , we need to analyze the table and find the teams that won the game and scored less than 13 points . From the table , we can see that there is one game where the home team ' north mel bourne ' scored 12 . 8 (80) points and the away team ' m el bourne ' scored 12 . 13 (85) points . However , the home team ' north mel bourne ' scored less than 13 points . So , the sentence with filled in masked entities will be : no team that won a game scored less than 13 point during that game .
