

To fill in the entities masked by [ENT], we need to analyze the table and find the missing information . The sentence is : [ENT] recorded 1763 more [ENT] participant than the [ENT] [ENT]. From the table , we can see that the home teams are : - Geelong - Footscray - Carlton - Hawthorn - Melbourne - St Kilda . The away teams are : - Richmond - North Melbourne - South Melbourne - Fitzroy - Essendon - Collingwood . The correct sentence should be : St Kilda recorded 1763 more participants than the Richmond players . However , it seems there is no information about participants in the table . Let's assume that the participants are the number of goals scored by each team . The correct sentence should be : St Kilda recorded 1763 more goals than the Richmond goals . Here is the filled-in sentence : St Kilda recorded 1763 more goals than the Richmond goals .
