

Based on the table provided , which shows the 1973 New York Jets season , we can see that the Jets won some games and lost others , but none of their wins or losses resulted in a sum of points greater than 80 . Therefore , the sentence " no game had sum of point bigger than 80 " is already accurate and does not require any entities to be filled in . The sentence remains as it is : " no game had sum of point bigger than 80 ."
