

To fill in the entities in the sentence , we need to find the lowest figure in the table for each entity . Assuming the entities are ' week ', ' date ', ' opponent ', and ' attendance ', we can find the lowest figure in each column . - The lowest week number is 1 . - The lowest date is ' September 12 , 1976 ' . - The lowest opponent is ' Chicago Bears ' . - The lowest attendance is 45908 . Here's the sentence with the entities filled in : the lowest week figure for a game was 1 , the lowest date figure for a game was September 12 , 1976 , the lowest opponent figure for a game was Chicago Bears , and the lowest attendance figure for a game was 45908 .
