

Based on the table provided , the sentence " no game in [ENT] had sum of point less than [ENT]" can be filled in as follows : "No game in the 1973 New York Jets season had a sum of points less than 7 ."

Here 's the reasoning : - The entity [ENT] in the first blank is filled with " the 1973 New York Jets season " based on the " title " in the table . - The entity [ENT] in the second blank is filled with " 7 " because the smallest sum of points in any game of the 1973 New York Jets season was 7 (in week 5 against the New England Patriots , where they won 9 - 7).
