Based on the given table, the sentence "there are only 2 different [ENT] that have a different [ENT] and [ENT]" can be filled in as follows: "There are only 2 different **episodes** that have a different **narrator** and **countries visited**." Here's the breakdown: - [ENT] = episodes (from 'episode no ') - [ENT] = narrator (from 'narrator ') - [ENT] = countries visited (from 'countries visited ')
