Based on the provided table, I'll fill in the masked entities in the given sentence. The masked entities are: - [ENT] for the person 's name - [ENT] for the team 's name - [ENT] for the position - [ENT] for the birth place Here 's the sentence with the masked entities filled in : The person born David Brooks in Saint Paul , Minnesota is a [position] and he plays for the Rochester Mustang s and has a [position] of 68 kg . To find the position , I looked up the table and found that David Brooks was a defenseman . Therefore , the sentence should be : The person born David Brooks in Saint Paul , Minnesota is a defenseman and he plays for the Rochester Mustang s and has a weight of 68 kg . If you want to know the full sentence with the positions filled in for all players , I can provide that as well .
