Based on the table provided, the sentence "100% of the [ENT] drafted [ENT] - [ENT] in [ENT] were male" can be filled in as follows: "100% of the **players** **drafted **male** - **players** in the **1989 NHL Entry Draft** were male ." Here's the breakdown: - [ENT] = players (from the 'player' column) - [ENT] = male (from the 'nationality' column, as all players were male) - [ENT] = players (from the 'player' column) - [ENT] = 1989 NHL Entry Draft (from the 'title' column)
